

**Remote Learning**

Today is the last day of the remote learning programme for this academic year. I want to thank the children and parents for working so well throughout the past four months in a learning programme that was new to all of us.

The class Seesaw pages will not be updated henceforward so parents/ guardians should not attempt to contact class teachers through the programme.

Throughout the past several months, many teachers will have used their own phones to contact parents to discuss issues with children and to provide advice and support to parents. I would ask that you ensure any teacher contact details are not retained on phones and that no attempt is made to contact teachers directly through phones.

I will be providing a further update with regards to plans for the forthcoming academic year in the days ahead. As you will appreciate, this remains a very fluid situation and we are preparing a range of contingency plans to meet any and all eventualities.

Summer School Programme

The Department of Education have finalised their plans for the publicised summer schools, and the result is that we are able to provide a summer school for the current Primary 6 children moving into Primary 7, but not for current Primary 4 and Primary 5 children.

The details of the proposed summer school have already been shared via Seesaw with the parents/ guardians of current P6 pupils.

C Donnelly
